Instructions for Authors

Submission should not substantially duplicate work that any of the authors have published elsewhere or submitted in parallel to any other conference or workshop that has proceedings. The paper must start with a title, an abstract and keywords, but should be anonymous. The length of the submission should not exceed 12 pages excluding the bibliography and clearly marked appendices, using at least 10 point fonts and reasonable margins. Since committee members are not required to read the appendices, the paper should be intelligible without them. All papers must be in PostScript (PS) or Portable Document Format (PDF). It is strongly recommended that submissions be processed using LaTeX2e according to the instruction at <http://www.springer.de/comp/lncs/authors.html>. Authors of accepted papers must guarantee that their paper will be presented at the conference. Details on the electronic submission process will be available on ICISC 2011 web site, <http://www.icisc.org/>

Conference Proceedings

The proceedings will be published by Springer-Verlag in the Lecture Notes in Computer Science.
